## About Me

Everyone used to call me Ade. I am interested in the IT field, especially IT hardware and software, accustomed to using MS. Office, WindowsOS. Have a passion in the IT field because the skills, abilities, and knowledge about IT are always developing and attracting attention. Trying to break the comfort zone by knowing new things because it's always evolving.

## Education

**Oct 2022 - Dec 2022**

*South Tangerang*

**Dumbways ID**

*Talent Bootcamp Dumbways ID*

Learn the technological systems of the Golang and React JS programming languages by implementing industry-required website projects

**Jun 2019 - Jun 2022**

*Tegal*

**SMKN 3 Tegal**

*Audio Video Engineering*

Learn fundamentally the logic of the algorithm and the implementation of making pcb designs using the eagle application

## Experience

**Apr 2021 - Sep 2021**

*Tegal*

**CV Mitra Mapan**

*Prakerin*

Design and assemble PCB on Electronic PCB Assembly Service Products

## Project

### Waysbucks

Digital platform to shop for Drinks by simply using the website

Syntax Tech : React JS and Golang

Access Demo : <https://waysbucks-fe-78vq.vercel.app>

### DumbSound

Digital platform for listening to music by simply using a website-based application

Syntax Tech : React JS and Golang

Access Demo : <https://dumbsound-fe.vercel.app>

### WaysToDo

Mobile application to record an activity or material

Syntax Tech : React Native

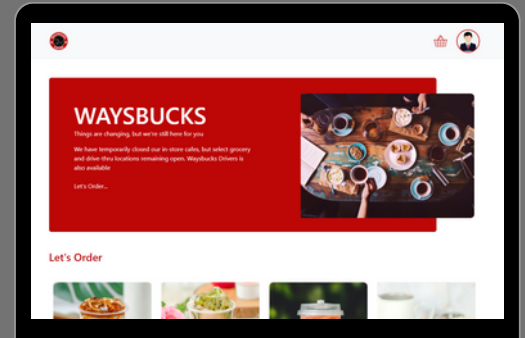

Access GitHub : <https://github.com/adnrfzl31/ways-todo.git>
